## RADDSports Open Gym Court Play System

### GROUND RULES

All participants will be respectful to other players and staff members. In the case of a player disrespecting others or staff members (example, yelling, slandering, cursing etc.) Disciplinary action will be considered. Please inform open gym employees and these employees will report to the RADD Volleyball Directors Holly and Monica. The conflict will then be addressed and re-entrance for the future will be decided.

Open Gym employees control the flow of court system play. Players will not organize or reorganize court system play. Only under special, unforeseen, or extenuating circumstances... Adult Open Gym Staff have the right to reorganize the entire "court system play" for all teams (at ANY given time of the evening) to ensure that all players get to participate in games and no player is sitting out excessively (2 or more games).

Open gym uses a ladder system to organize games where the winners will move up one court and losers will move down one court (to ensure competitive play).

The bottom or end court is the "work up" court. This will be **priority** for all teams or individuals who are sitting out (regardless of the team that lost on the court above the work up court). The team that lost on this "above" court must also sit out one game and begin on the "work up" court for the next game.

If an odd number of teams or individuals show up later (ex. 3 full teams or 2 full teams plus 1/2/3/4/5- individuals/free agents) there will be multiple work up courts, closest to the bottom (regardless of the teams that lost on the above courts). This is to ensure fair play time for all individuals. Winning teams will always move up.

Individuals without a team will be considered free agents. If individuals do not have a team, it will be expected for losing teams to be considerate and sub as players for the free agents without a team. After the game ends, subs can decide to stay with free agents or return to their original team. If subs return to original teams and the free agent teams win, this team will move up one court and can sub players from other losing teams or individuals sitting out.

Please be mindful that all teams and games should begin around the same time to respect the flow and organization for all to enjoy playing.
